

We market our products in many countries of the world. Again and again we and our partners in the field receive interesting reports from dairy farmers and scientists. We are happy to process this information to you and hope that you will find it helpful. Send us your suggestions – we count on them to help us give you a better product!

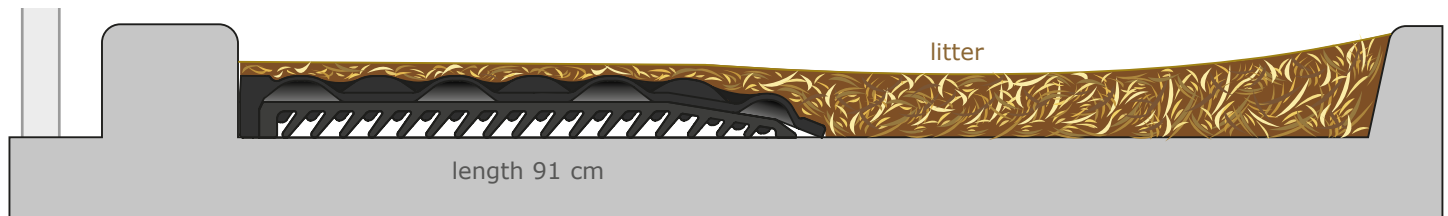

Many thanks, your KRAIBURG Team

ISSUE 62 - March 2019

THE NEW DEEP LITTER CUBICLE CUSHION KRAIBURG POLSTA: CARING FOR CARPAL JOINTS

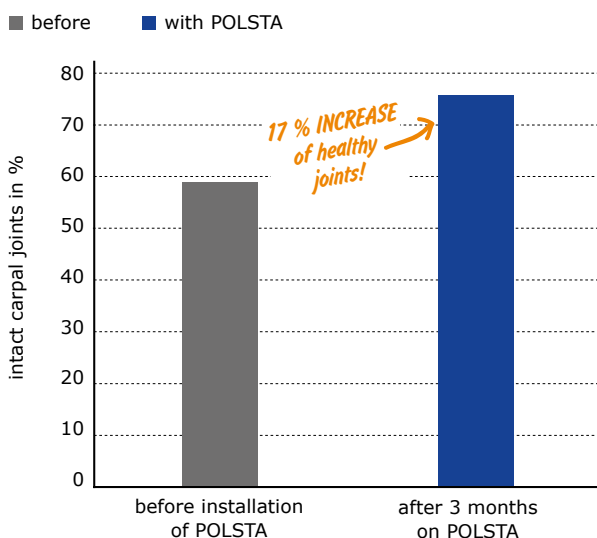

- 10 cm thick "cushion" made of 2 functional layers
- replaces the thick lower layer of litter in the difficult to be maintained head space of the deep litter cubicle
- provides a consistently stable and comfortable sub-construction
- offers easy management and saves litter

The agricultural test institute HBLFA Raumberg-Gumpenstein, Austria, has tested the deep litter cubicle cushion POLSTA on various dairy farms. Skin damages and joint alterations have been recorded.

- ▶ **Evaluation** of POLSTA by the dairy farmers: **very good!**
- ▶ The animals accept the cubicles well and maintenance is facilitated.
- ▶ Although good joint health prevailed already in the cow houses from the beginning, further improvement was shown even after a short period of time!

Caring for carpal joints

positive effect on carpal joints even after a short period of time: steady improvement in joint health
