

CONFIRMATION of emission reduction of profiDRAIN

Gummiwerk KRAIBURG Elastik GmbH & Co. KG confirms that the independent test laboratory, accredited to standard DIN EN ISO/IEC 17025:2018 (German accreditation body: D-PL-17451-01-00),

ANECO Institut für Umweltschutz GmbH & Co.
Wehnerstr. 1-7, D-41068 Mönchengladbach

has tested the emission reduction of our **profiDRAIN** drain channel rubber flooring compared to that of a level concrete floor.

The mean ammonia values determined were **roughly 61 % lower on the profiDRAIN flooring than on the level paved concrete floor**. The maximum reduction achieved was 70 %.*

**ANECO results report 70198-002 (May 16, 2024)*

The complete results report is available on request.
Legal basis is the German version of the document.
