CowCross

Self-draining rubber flooring for elevated crossing passages

| 3 % integrated slope toward the walking alleys
- › Allows liquids to drain quickly and reliably
- › Reduces hygiene risks in critical areas
- › Ensures dry hooves and helps support hoof health
- › Reduces ammonia release through rapid urine drainage (fast separation of feces and urine)

| Better sure-footedness on the crossing passage

| Hoof-friendly soft walking surface provides pleasant walking comfort

| Easy to retrofit on existing crossing passages

| No elaborate slope concreting is required in new construction

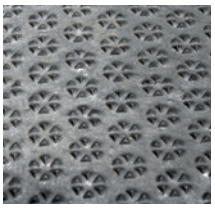
| Flexible system design: Crossing passages **up to 5.2 m wide** can be covered

| THICKNESS
15 - 92 mm

| SURFACE
optiGrip and square imprinting with slope

| SPECIALTY

| COMFORT



Slip-resistant surfaces

| KRAIBURG fixing system
- › stable and secure
- › rounded off and countersunk

CowCross system design:
