

The robust rubber brisket board

Rubber brisket boards – designed as gentle limitation in the free stall – enable comfortable lying with free space to the front and perfectly complement the control devices of the free stall. The maxiBOARD is ca. 11 cm high and allows cows to lie in natural positions, for example with stretched out foreleg. Easy on carpal joints when getting up. The rounded shape also enables simple re-bedding from the head space. maxiBOARD is placed overlapping a little on the lying mat, that allows for easy attachment simultaneously with the mat. Retrofitting is also quite simple. It is a perfect fit for 3 cm thick mats; and for installations with thicker lying mats, a special plastic bar is added underneath.

- Elastic and robust
- Simple re-bedding from the head space possible
- Suitable for every free stall width

Technical data

Dimensions	Height	Depth	Length
maxiBOARD	11 cm / 4 $\frac{3}{8}$ "	13 cm / 5 $\frac{1}{8}$ "	175 cm / 68 $\frac{7}{8}$ "

Optional accessories: Plastic bar	Thickness	Width	Length
To raise / shim the maxiBOARD for installation on KEW Plus or WINGFLEX	3 cm / 1 $\frac{1}{4}$ "	10 cm / 4"	200 cm / 78 $\frac{3}{4}$ "
Is simultaneously fixed with maxiBOARD.			

Installation and fixing

7 fixings / piece Prefabricated fixing points facilitate installation.
